To whom it may concern

I confirm that I have known Gerda Müller for a year now. She is one of our company's top suppliers, if not the best.

At all times I have found Gerda to be highly dependable, hard-working, conscientious, honest, and her service and supplies are of the best quality one can find. Gerda always goes the extra mile.

She is always committed and her service levels are of outstanding value. Her enthusiasm and great service also plays an integrate roll in the growth of our company.

I would happily recommend Gerda for any company as I consider her to be a valuable member of our team, who consistently achieved good results and delivers all expectations.

I'm happy to provide further information if required.

Yours faithfully,

JOSUA JOUBERT
